Subject: Re: Long term stewardship = long term effectiveness an permanance

Hi Michael,

I was going to shoot you an email just now to see how the 4/30 meeting went. You did send me the final report with survey results from the City. W will look into the guidance document question regarding long-term effectiveness and get back to you soon.

I do have two questions for you:

- 1) Do you have a date set or in mind for the public availability session?
- 2) Have your received drawings for the site-wide redevelopment option from CH2MHill?

I will be on travel tomorrow and Thursday but wanted to see if we can find a time early next week for a call to discuss and confirm next steps, timing and any new information we should be aware of.

Thank you!

You know which guidance docs state this most clearly?

Also, have I sent you the city survey stuff?

Free to talk on Friday?
